WETASKIWIN COUNCIL HOLDS FIRST MEETING

Mayor outlines Work to be Undertaken in 1926. Stand ing Committees and City Officials Appointed. Matter of sinking Deep Water Well discussed. Night Watchman to be continued.

The first meeting of the 1926 council was held on Tuesday evening with all the members in attendance. His Worship delivered his insugurant saddress, outtlining some of the matters to be dealt with during the 'year.' In part the mayor's address was as follows:

"The city is now in the best financial position it has ever occupied." The city is now in the best financial position it has ever occupied. The worship of the position is the sever occupied. The worship of the part is a surphus of about \$10,000 from his year. It will be the aim of this council to keep a walchful eye on expenditures, but sufficient must be spont to keep public utilities in a high state of affitelegar. The electric light and water show a reasonable surphus on the year's operations. Increased water supply must engage the immediate attention of the council. The high council passed a resolution that any expenditures for water must be met out of utility surphus and this will be done unless the new council decides otherwise.

"Early last year council made provision for the replacing of a section pipe. It was not found necessary to make this expenditure, but It may have to be done this year. The development of our natural gas supply for donestic purposes is a question that should be considered at an early date, Nothing would tend to increase our population or the value to the city property so much as a good natural gas supply. The matter should be referred to the utilities committee in order that they might prepare a report for the council at an early date, to that if it is decided in or a phend of the council at an early date, to that if it is decided in or a phend of the council at an early date, to that if it is decided in or a phend of the property of the council at an early date, to the first of the council at an early date, to the first of the council at an early date, to the first of the council at an early date, to the first of the council at an early date, to the first of the council at an early date.

city property so muca as a goou are tural gas supply. The matter should be referred to the utilities committee in order that they might prepare a report for the council at an early date, so that if it is decided to go ahead with the proposition this year, and any start could be made. His Worship, concluded by welcoming Alderman Sept to be found to many faton and Alderman Sept to be found with the proposition and Alderman Sept to be found when the proposition of the last meeting were read and adopted, after which secretary Treasurer Prases presented renewal ifdelity bonds for himself and his assistant.

The following standing committees were then appointed, an ercommendation of the mayor, and adopted and Brown.

The minutes of the last meeting were read and adopted. All grades are the second for limself and his assistant.

The following standing committees were then appointed, an ercommendation of the mayor, and adopted. Finance—Ald, Parker, Gothard and Brown.

APPRECIATION
The Wetaskiwin Recreation Club
estres to publicly thank all the
tembers of the Elks' and Kiwanis members of the Eaks and Rivania Clubs and also the Beltistos and Hust-lers hockey teams for stagling the hockey games on New Year's after-noon, whereby over \$70.00 was real-ized for purposes of the association.

TIMES' MAILING LIST IS GROWING

LIST IS GROWING

During the last few weeks The
Times has added a large number
of new subircibers to its mailing
lists. This is very graftfying to
the management, as it is evidence
that The Times is the popular
paper, and that it is giving the
news the public demands. Nearly
all the new names added are of
people living in Wetasikwin and
district. This increased circulation enhances the value of The
Times as an advertising medium.

lesque on New Year's atternoon, in
which Sam Bacter and Fire.
Fore two Contributions Functions
of the Contribution of the Contribution of the Samon, which was fast and
furious throughout.
The ice was slow, which made good
combination nigh out of the question; but notwithstanding this both teams
turned in a recitlable game.
For the visitors, Self, Harper and
Lamquist were the outstanding players. Times without number they
closed in on the net, but owing to
superint goal tending by young Brickton, the contribution of the contributio

changed to a cheer as he saved a surce goal.

The following was the line-up:
Hustlers—D. Stuart, goal; T. Mellon, H. Harper, defence; B. Croft, W.
Lunquist, G. Self, forwards; McGee
and J. Croft, subs.
Boltlato—A. Brickman, goal; J.
Watson, C. Patterson, defence; B.
Chandler, B. Richards, J. Mans, forwards; R. Chandler, D. Hanna, W.
Mcfarlane, subs.

In the evening an impromptu party
war put on in the Beltistos Chib
rooms, to entertain the visitors, Mr.
and Mrs. McMurdo Illied the bill of
chaperous to perfection. Mrs. McMurdo, Miss O. Miquelon and V. Miquelon provided the music for the
dancing. About 36 couples were present.

CURLING NOTES

Remember the date of the dance

Remember the date of the dance beling put on by the Ladies' Curling Club on Friday, January 16th.

The schedule of the new draw made for the men's club appears in this issue. All curlors are requested to cut this out and keep it where they may be able to refer to it at any time while the schedule is being played.

Members of the curling club are requested to call the rink to find out when they are scheduled to pay, as the draws will be kept posted on the blackboard there.

Arrangements are being made for the holding of the annual bonsplet, which commences at 9 a.m. on 'Tuesday,' February' 2nd. Nothing will be left undone to make the 'spiel this year a record breaker.

WORLD MARKET

Vermillon, Jan. 4—Contracts signed here last week for the sale to a large manufacturing concern of steel products in Chicago, or a non-whrating bolt, covering which S. Kennedy Smith, of Manaville, has patent rights pending both for Canada and the United Sfates. The sale was made on a royally basis, a canh ofter of several thousand dollars having been declined by the patentee.

Tests made locally a few months ago of this bolt demonstrated that it cannot possibly be otther broken or best of the manufacturing of a 10 acre floid of raw hand with considerable since and brain, The ordinary both such as the product of the second and syring off. One of these patention of a 10 acre floid of raw hand with considerable since and brain. The ordinary both work and one attached hosts was then placed in the position of king bolt and the remarked and stranged for the fleid was placed without further trouble. The both, which is in two parks, is so constructed that the heavier the strain the tighter in the same.

By a clever device in the make the nut can be easily unsercewed and this new invention and who have examined this new invention and who have seen it tried out in Winnipeg and Chicago chain that within a few years it will be practically the only bolt on the maken.

Mr. Smith has been working on this platent for over two years, and the

matic of the First Aid Championship of the entire system of the Canadian Pacific Railway, will be competed for at the Place Viger Hotel, Montreal, November 1.5. The champions in a knock-out competition among Eastern and Western teams respectively, will fight it out for the trophy. ABOUT \$24,000.00
Dr. Beland, minister of militia, has notified Major Nornan Bibble that an order in council has been prepared which will go through at the next general meeting of the council, instructing the receiver general of Canada to hand over to a committee of three, consisting of Major Dingle, John Dunn, of Toronto, and Col. Cape, of Montreal, the sum of £5,000, to be distributed among the Imperial Voterans in Canada. This is the share of the Canteen Fund of the Imperial Army. Plans are already being laid to make the 1925 Eastern International Dogaled Derby an even greater suc-cess than in any previous year, and it is reported that the prize money will be considerably increased next winter, with the object of attracting

Orange River province, South Afri-ca, is the most Dutch country in the world outside Holland. The British Isles are the centre of the earth's land hemisphere, and New Zealand of the water hemisphere. Fire Prevention Week, October 4-19, was observed throughout the Dominion, and to mark the sense of the oceasion Mr. Grant Hall, vice-president of the Canadian Pacific Rallway, breadent an appeal by wire to every office and employee of the system "to cooperate as in the past and set a good example by throughly cleaning up all premises."

Advertising Is Not Added Expense

Advertising is an improved and modern way of distributing your merchandise. It takes the place of the old, slow, costly and inefficient methods

In olden days it was necessary to depend upon personal solicitation or gossip or hearsay - - now you can tell your trade, through the columns of this paper, timely, interesting news about your merchandise and store.

To make these messages still more attractive we have secured for your use a Sales Service of high grade Illustrations and ready-written Ads, which we will be glad to show you at any time.

Do We Sleep Too Much?

(Litterary Digest)

It is sleep, taken in too big doses, and fills the booly with poisons?

Dr. Fred A. Moss, professor of psychology, at George Washington
University, Washington, D.C., believes that this conclusion may regult, from data gathered by a test during which the experimenter and eight of his students subjected themselves to an ordeal of sixty slamberless hours. All of them, four men and four women, in perfect physical condition, we are told by the Boston Globe, energed from the test apparently none the worse. Long automobile drivers through the villages surrounding the city, dances, singing, frequent and right examinations by university physicians, and attention to the routine daily tasks helped to while away the hong hours. We read:

"It required courage and tenacity, Fordessor Moss radults, to fight of the persistent demands of Jordens, had a considerable that after the first sleepless slight, twas not so had. Once routed, sunrels, and the condens of the persistent demands of Jordens, had and the device that the protection of the subdents showed any tendoncy toward prolonged sleep.

"The rests will be repeated soon. It, alwas helicity is the state of the subdents showed any tendoncy toward prolonged sleep." The tests will be repeated soon. It has been any definite statement on the rescale from the oblition of subman life even asked from the works and mattresses.

"It is too early, as yet, he says, to make any definite statement on the results of the tests. All those who took them have returned to their scales and mattresses.

"It is too early, as yet, he says, to make any definite statement on the results of the tests. All those who took them have returned to their scales and mattresses.

"It is too early, as yet, he says, to make any definite statement on the results of the tests. All those who took them have returned to their scales and mattresses."

It is too early, as yet, he says, to make any definite statement on the results of the costs. All those who took them have re

17. But the boy returned to complete normality sooter, showing the reciperative powers of youth.

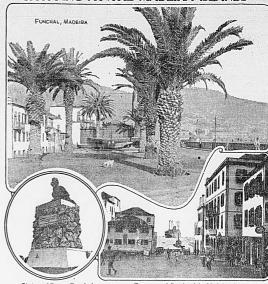

"Pool proved to be a factor. Four of the subjects went on an 18 hour fast during the test, and felt quite sick at the cold. After a good meal, bowever, they were restored to continue to the end of the order of the order. "Results which still are to be determined relate to the effect of caffeln Those who are coffee drinkers abstained completely. Those who never

Those who are coffee drinkers abstained completely. Those who never drink coffee partook of it in considerable quantities. Dr. Moss expects it to prove that coffee really has nothing to do with sleeplessness. In spite of the old established idea that a cup, before bettime will keep the cobbest version.

a cup active oculino will keep in subject awake.

"He figures that if a third of the customary sleeping time could be re-off, the individual could add fir-yours of working thing to the average

HOW TO CARE FOR BREEDING STOCK

FEED POTASSIUM IODIDE TO THE SOWS, EWES AND COWS, TO PREVENT HAIRLESS PIOS, GOTTERED LAMBS AND CALVES

In some seasons losses from hat-less pigs and goitered lambs and cate was passed in 1251, will be made that west routines are caused very largely through lack of insufficient Iodine in the system of the pregnant mother. Dy feeding of Potassium toldine that mount of jedines in the first produce will obtain the system of the pregnant mother. Dy feeding of Potassium toldine that mount of jedine in the thyroid gland of both the mother and the young animals can be largely increased, and the loss of the young animals from these causes as most entirely prevented.

After a long, cold winter with deep snow, heavy losses of young pigs, mahs, calves and foals may be expected, but can be largely prevented. The deep snow, heavy losses of young pigs, lambs, calves and foals may be expected, but can be largely prevented. The deep snow, heavy losses of the soil Exercice is always heneffelal, and the sol seems to be a regulator for the system. It is probably for these two reasons that there is seldon may trouble with the fall pigs, calves and foals and much larges reports and foals and be can be condition reports. The probably for these two reasons that there is seldon may trouble with the fall pigs, calves and foals and much leaves trouble with his lambs, are achieved to the probably and the conditions and much plant to the conditions and much plant to the conditions and much plant to the conditions and mind there is seldon any trouble with the fall pigs, calves and foals and much are altered to the part to the pa

in the a regulator for the system. Its probabily for these two reasons that there is seldom any trouble with the fail pigs, enives and foals and much can be trouble with, the lambs. Another drivible with the same and so the another decent trouble with, the lambs. Another drivible with the same and so the same trouble with the decent from the particular kinds of dairy roduce to which the act shall apply and which the water from many wells contains an articles in dairs of the particular with particular with the skin each time. This is slight-cheaper than the potassium iodide

feed.

For pregnant mares give each mare
on the first and fifteenth of each
month, in the feed grain or in the
water, a level teaspoonful of finely
powdered potassium iodide.

CANADA IS SLOWLY GETTING WARMER

Or, are we now in the circus assone warmer period from which there will be a retreat?

No one at the present can answer these questions, but one thing seems certain, since we are now in a long swing of milder year in the northern United States and Canada, we can be reasonably sure that there will not be a return of the cold winters and cool summers which chaeterized the years around 1816, athough it is quite possible that the temperature of the conling winter or the coming sumer may be below the mean of the past ten years.

planeted ball bearing, 16 gaugo, thin saw dath machine, manufactured in Prenciang, Gin.

The new Payette invention takes and licerase the quantity caport cattle to the Livestock broker hist and licerase the quantity caport cattle to the Livestock Product and there and the same amount of macterial.

HOUSE PARTY ON NEW YEAR'S EVE

NEW YEARS EVE

Mr. and Mrs. McManus gave a
house party on New Year's Eve for
their daughter Alice. About sixty
guests were present, one of them being Miss Annie Nordorp, who is
leaving shortly for the States, to enter training as a narse. At the supper hour a presentation was made of an ivory breash and mirror by Mollie
Plant. Although completely taken by
surprise, Miss Nordtorp made a very
suitable reply.
We are sorry to lose Miss Nordtorp
from our midst, she having endeared
herself to all by her sunny disposition, and we all join in wishing her
every success in her new work.

More Games Ser Fahlon 1: The Experience of the Special particles of the Alberta Congentive control of the Alberta Congentive c and Muddy Ruel being among them.

The romance of a world cruise culminated in New York Gity recently when Dorothy Holmes O'Ryan, daughter of Major-General and Mrs. John F. O'Ryan, of New York, married Darwin Curtis, of Chicago. The couple met for the first time a year ago on board the Canadian Pacific liner Empress of France which was then making a tour of the world. It is feared they had no eyes for the world marvels which were unrolled before them on the tour, since it is stated they fell in love at first sight and could only see each other. The marriage was performed by the Rev. Father Francis P. Duffy, chaplain of the "Plaing Skty-nith," a regiment commanded by the bride's father during the war.

the war.

Good reading for Canadian Packfic shareholders in furnished in the
September statement of gross earningrie-reading expenses and facfice shareholders for the company in
a long time. The gross earnings
were \$18,900,901, the greatest shown
in any month since October, 1924.
462 and the difference between the
two, the met profits \$20,376,169, an
increase of \$1,719,973 over the corresponding ment of last year. Netearnings for the first three quarters of this year, ending September 30th, is \$1,109,030 greater than
the 1924 figures, despite a decrease
in gross earnings of over four and
a half millind dollars. This was
made possible by the company's
policy of rigid economy.

To bring the Arctic within the

policy of rigid economy.

To bring the Arctic within the scope of tourist traffic is the object of the Marquis M. N. degli Abizzi, winter aports director at Lake Placid, who is organizing pack horse trips of thirty days' duration next year from the Canadian Pacific Rockies as far north as the Coiumbia Lee Fields within the Arctic Cricle. "We are going to swim our horses and outfit across the Sastachewan liver and camp near the sources of the Athabasca which empties into Great Slave Lake and thence into the Arctic," the Marquis asserts. The five of these trips is scheduled between June 28 and July 27 next year.

The next and final session of the
Alberta legislature before dissolution
will probably be called early in Feb-

will probably be called early in Penrary.

Sugar Factory Production

The output of the new Raymond
sugar factory, following the first season's run, will be about \$3,000 bags
of sugar, from about 45,000 tons of
bects. The run was not as heavy as
first expected, but was quite satisfactory. The pulp and other by-products of the plant are to be used in
stock feeding experiments.

Government Fur Sale

At the second fur sale conducted
under the auspices of the game
branch of the provincial department
of agriculture, pells to the value of
